

ALOPECIA ROADMAP

1 Alopecia Diagnosis

Whether you are self-diagnosed, misdiagnosed or only know that you are losing too much hair and don't like it, we can help. There are natural options that work and do so in less time to get you going on hair growth, health and happiness.

2 Failed treatments

You've been there and done that with all the medications and shampoos and magic potions. You do not want harmful medications, side effects, or be tied to a product for 50 years, you want your hair back, naturally and long term. You do not want to sacrifice other limbs, organs or other aspects of health. PRP, laser caps, hair transplants, and wigs are not solutions for you. They are expensive gimmicks that do not provide results or long-term guarantees.

3 Discover Alopecia Angel

Welcome! Let me give you **FREE downloads** on prescriptions that cause hair loss, and side effects to common alopecia treatments. If you are here, you only want to consider natural options for you or your child. In both cases, this is the **ONLY** way to heal and reverse alopecia for life.

4 Consider a Proven Holistic Alternative

A 360-degree method that encompasses and looks at all aspects of your health: mind, body, and spirit. The **Hair N' Heal program** has no risks, no side effects, anyone can do it, comes with personal evaluation, and includes coaching and guidance. A step-by-step framework for healing and creating hair growth in less time, taking out blindspots and spearheading health, hair and happiness. This program has been created for children and adults alike, with various ailments, various types of alopecia and hair loss.

5 WEEKS

10 WEEKS

100%
CUSTOMIZED
TO EACH
PERSON

5 If you decide to take a detour or "wait and see," then the possibilities of more vicious cycles (more hair loss and hair growth) can and will happen.

Hair loss can get worse over the course of days, months, or years, you would not heal as fast as you can if you don't start now. You will ultimately delay your progress, freedom, confidence, and self-esteem and live a limited life mode as losing hair inhibits all the above including being your best, finding the motivation to be outgoing, your normal routine, activities and "showing up" for life.

6

The end to hair loss is a personal choice.

You can end the factors that attribute to your hair loss and learn to overcome it in less than 8 weeks or you can keep trying mediocre options that show no results.

7 High Performance Hair Growth by Joining the Hair N' Heal Program

Investing in your hair growth trickles down to your overall well being, mental health, emotional health and beyond. Hairloss is more than hair, and the symptoms are all connected. I commend you for taking this first step, taking action will only lead to hair growth and the results you want! You are in the drivers seat and placed with full control over your hair regardless of the type of hairloss, how long you've had it, where you live or how old you are. Its never too late to heal. You can do it, and we are here supporting you each step of the way!
