

ALOPECIA ANGEL

The "Why I got Alopecia" and What to Do About it Guide

Reversing Alopecia in Adults + Children through
Diet + Lifestyle

The What

WHAT IS ALOPECIA?

Alopecia is one of over 140+ autoimmune diseases. In this case, alopecia attacks your hair follicles, producing hair fallout and shed. There are various types of alopecia, and many can be completely reversed!

Why Did I get Alopecia?

REASONS

There are many reasons as to why you got alopecia, there are many factors involved. Its not just one thing or another, its a combination of items. In this same manner we can also begin to heal as we look at every part of health and wellbeing. In my own experince having gone through alopecia for over three years, I realized there were many things as a child or adult that were not healthy for me. Disease doesn't happen over night eventhough it seems that way. Disease occurs when we are living in a manner that is not healthy and it compounds or accumulates, we later see a full blown disease. By then, our bodies are sounding the alarms with the hairloss. Don't fret- this can heal and reverse! We look at diet, lifestyle, toxins, environment and so much more to upgrade your health and hair growth!

25%

DID YOU KNOW?

That 25% of people who have one autoimmune disease, go on to acquire a second and even a third autoimmune disease! Not doing anything is not an option if you want a healthy life! In addition, the sooner you take action steps towards healing the sooner hair begins to grow!

So What Can You Do? What Are your options?

ALOPECIA ANGEL

Two Options : One Heals and the other Does Not

CONVENTIONAL

Conventional Medicine offers cortisone shots, creams and pills which all have side effects, long term and short term effects. It also has no guarantees of long term hair growth. Thus, many live with a vicious cycle of hair growth and hairloss until the meds no longer work. See side effects Freebie for full list.

ALOPECIA ANGEL

Through experience, research, design and results: diet and lifestyle changes deliver long term results of symptoms and hairloss, producing reversal of alopecia. This method is safe and secure for children and adults. Results vary but 90% of clients begin to see renewed hairgrowth in less than 3 months. New habits not only reverse alopecia, but optimize immune system while regaining health! No side effects except true health, healthy hair growth and new learnings for a healthier lifestyle, managing and mitigating alopecia for life, keeping it at bay and dormant.
